ABOUT ME

Motivated and detail-oriented Frontend Developer with hands-on experience in HTML, CSS, JavaScript, Dart, and Flutter. Passionate about building responsive and user-friendly web and mobile applications. Currently working as a Frontend Development Intern at CodeAlpha while continuously improving my skills through real-world projects and hands-on learning. Eager to contribute to a dynamic team, gain practical experience, and grow as a Frontend Developer.

Projects

Facebook Responsive Clone

Created a responsive Facebook-inspired interface using Flutter and Dart with reusable widgets and adaptive layouts, ensuring a clean and seamless user experience across multiple devices.

Netflix Clone

Built a responsive Netflix-inspired landing page using HTML and CSS with a modern user interface and responsive design, ensuring compatibility across desktop and mobile devices.

Image Gallery

Developed a responsive image gallery using HTML, CSS, and JavaScript, featuring next/previous navigation, a lightbox view, hover effects, smooth transitions, image filters, and category-based filtering to enhance the user experience.
